

LMS

Leak Management Software

Manage your compressed air leaks — **save your time and costs**

The Leak Management Software (LMS) provides a total solution for leak detection, management and easy report creation. The software comes as a local installation on a PC and works seamlessly with our S531 ultrasonic leak detector. Recording leaks in the field using SUTO S531 leak detector and later importing them to LMS software enables users to gather quantitative leak loss data and easily create powerful reports which provide a full overview of the customers' leak situation.

Benefits
